## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are:

In claim 1, the second superabrasive layer has not been defined. The claims claims a secondsuper abrasive layer but does not define where it is located on the blade. Therefore when the claim lists the reinforcing superabrasive layer as being formed on the inner peripheral side of the second layer, it is impossible to tell where this is. Based upon the reinforcing superabrasive layer being claimed in reference to the second layer, and the second layer not being defined in the claim, the Examiner is unable to interpret exactly what is claimed, and the actual structure of the blade.

Normally a claim which fails to comply with the first and/or second paragraph of USC 112 will not be analyzed as to whether it is patentable over the prior art since to do so would of necessity require speculation with regard to the metes and bounds of the claimed subject matter, In re Steele, 308 F.2d 859, 862-63, 134 USPQ 292, (CCPA 1962) and In re Wilson, 424 F.2d 1382, 1385, 496 USPQ 494, 496 (CCPA 1970).
